Meet some of our successful Notre Dame College Interns

MICHAEL RODRIGUEZ ’15
Major: History/Intelligence Studies
Internship: Museum of Contemporary Art

“My experience at MOCA has benefited me greatly. It showed me the policy and procedural aspects of a museum, and also gave me insight as to how those elements affect every day operations at the facility. I learned that every establishment’s policies can be dramatically different given the needs for operating. I can see myself working in an organization such as this in the future.”

ELIZABETH NORMIS ’15
Major: Biology
Internship: Dr. Morris Levinsohn

“My internship has been a once-in-a-lifetime opportunity, and the best experience I have had at Notre Dame College. Dr. Levinsohn has given me the encouragement and the confidence I needed in order to pursue a career in the medical field. I learned an extensive amount of the basic science and clinical aspects of neurology during my involvement at my internship.”

CARLOS LOUIS ’15
Major: Political Science/Criminal Justice
Internship: South Euclid Municipal Court

“This experience has shown me that I can learn things quickly and no matter how big a task may be, I have the ability to complete it. Though I provided a helping hand to the South Euclid Municipal Court, the court has blessed me with an opportunity to build upon my foundation of knowledge so that I can actively pursue a career in criminal justice.”

DEMI BARRETT ’15
Major: Public Relations and Communication
Internship: The Elevation Group

“Elevation provided the reassurance that I was in the right career and degree field, and also made me see what I want in a company when I apply for jobs. This internship helped me understand that what I learn in class does crossover into real life. I was able to use my creative, critical, and analytical sides of my brain and I loved that. I worked over 30+ hours for free because it became my passion. Elevation has helped me become the marketer that I am now.”

OLIVIA FORTE ’15
Major: Accounting
Internship: Cuyahoga EITC Coalition

“My internship experiences and coursework at Notre Dame College allowed me to accomplish all of my learning objectives while furthering my experience. My communication, analytical, and problem solving skills as well as federal tax knowledge were all applied and exercised throughout my experience running the tax site this season. I have effectively made a difference within my community and completed my third internship.”
