

FACULTY OPPORTUNITY

Non-tenure track

Assistant Professor of Organic Chemistry

Deadline to submit materials: March 29, 2019

Start Date: August 1, 2019

Notre Dame College, a Catholic institution in the tradition of the Sisters of Notre Dame, educates a diverse population in the liberal arts for personal, professional and global responsibility.

The College sits on 48 picturesque wooded acres, tucked away in a quiet suburban neighborhood just outside of Cleveland. As a small liberal arts college, we value the low student-faculty ratio that fosters a warm personal atmosphere and the individual attention that contributes to success. We also have a vibrant campus. We offer more than 30 academic programs and more than 30 student organizations and are home to more than 20 NCAA varsity athletics, students from 40 states and 23 countries and more than 30 percent of our students are minorities.

As a teaching focused institution, our fulltime faculty carry a 4/4 teaching load and are involved in a number of service activities, such as undergraduate student advising and participation in faculty governance.

In support of the college's mission of educating a diverse population, women and minorities are strongly encouraged to apply.

REQUIREMENTS AND QUALIFICATIONS

Primary teaching responsibilities will include organic chemistry, general chemistry, and additional non-majors science courses. The successful candidate must hold a Ph.D. in Organic Chemistry or a related discipline and have a strong commitment to undergraduate teaching and research.

To ensure full consideration, submit a cover letter, your current curriculum vitae, a narrative describing your teaching philosophy, a statement of research interest, three professional letters of reference, and any other supporting materials you would like to have considered to careers@ndc.edu. Please type: Assistant Professor, Organic Chemistry in your subject line of your email.
