

Your EFC Has Not Been Calculated

The Department of Education was unable to complete processing of your 2020–2021 FAFSA. Your EFC (Expected Family Contribution) was not calculated due to either missing information or an error on your application.

You must review your Student Aid Report (SAR) at www.fafsa.ed.gov by signing in with your FSA ID and password. Read the first page of your SAR for important information regarding the processing of your application.

If you have questions about correcting your FAFSA, please call the U.S. Department of Education at 1.800.4FED.AID.
