## Ohio Educator Preparation Provider Performance Report

### Notre Dame College of Ohio

---

#### **Institution Profile**

(Data Source: Notre Dame College of Ohio)

Notre Dame College, a Catholic institution established by the Sisters of Notre Dame, welcomed students in 1922. Over the past 91 years, the changing needs of its students and ongoing local and national trends have shaped the institution.

The Sisters transplanted to the Cleveland area a cohesive and student-centered educational heritage with the establishment of the College. The Sisters' beliefs about the value of the teacher, the worth of each student, and the transformative nature of education guide all college programs. The Sisters have a history of reaching out to diverse populations.

#### **Division of Professional Education**

The Division prepares knowledgeable, effective, and reflective teachers and school leaders at the graduate, post-baccalaureate, and undergraduate levels. Courses are offered on campus and online. We believe that education is a process and a product. The process is evident in dynamic and ongoing professional relationships inside and outside the college and clinical classrooms. The process integrates the cognitive, affective, and spiritual development of the individuals in the relationships. The product is evident in the actions, words, and artifacts that result from the educational endeavor.

**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared  
 by an Ohio Educator Preparation Provider at Notre Dame College of Ohio**

Reporting Period from Sept 1, 2019 to Aug 31, 2020  
 (Data Source: Ohio Department of Education)

**Description of Data:**

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

**Limitations of the Ohio Teacher Evaluation System (OTES) Data:**

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

**Description of Data:**

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.

**Field and Clinical Experiences for Candidates at Notre Dame College of Ohio**

Reporting Period from Sept 1, 2019 to Aug 31, 2020

(Data Source: Notre Dame College of Ohio)

**Description of Data:**

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

<b>Teacher Preparation Programs</b>	
Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	N
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	100
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	150
Average number of weeks required to teach full-time within the student teaching experience at the institution	15

**Ohio Educator Licensure Examination Pass Rates at Notre Dame College of Ohio**

Reporting Period from Sept 1, 2018 to Aug 31, 2019  
(Data Source: USDOE Title II Report)

**Description of Data:**

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one-year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2019-2020.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

**Value-Added Data for Students Taught by Teachers Prepared by  
Ohio Educator Preparation Providers at Notre Dame College of Ohio**

Reporting Period from Sept 1, 2019 to Aug 31, 2020

**Description of Data:**

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

**Pre-Service Teacher Survey Results**

Reporting Period from Sept 1, 2019 to Aug 31, 2020

**Description of Data:**

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 2,903 respondents completed the survey statewide for a response rate of 68 percent.

**Excellence and Innovation Initiatives**

Reporting Period from Sept 1, 2019 to Aug 31, 2020  
(Data Source: Notre Dame College of Ohio)

**Description of Data:**

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

**Teacher Preparation Programs**

<b>Initiative:</b>	<b>Makerspace and Teaching Demonstration Classroom</b>
<b>Purpose:</b>	To provide hands-on on-campus experiences for teacher preparation candidates
<b>Goal:</b>	Prepare teacher candidates for using technology and planning instruction for universal design
<b>Number of Participants:</b>	143
<b>Strategy:</b>	Through generous grants in honor of a deceased faculty member, the division was able to dedicate a Makerspace and purchase a 3-D printer, two laminators, a video camera and green screen, a die cutter, and other materials and tools for creating projects to use in field experiences and student teaching. Attached to the Makerspace is a teaching demonstration classroom with a SmartBoard and document viewer, a classroom library with books for K-12 students, and flexible seating. We began putting the spaces together at the beginning of fall 2019 and started to use both spaces with teacher candidates who created projects for their classes and for field experiences. No student teachers used it in the fall. Unfortunately, we had to shut down in March due to the COVID pandemic and we have not been able to use either space since then. We hope to pick up full operations with training and full usage in fall of 2021.
<b>Demonstration of Impact:</b>	Twenty candidates made projects for their field experiences and two classes used materials in the Makerspace for their course assignments. A total of 12 course sections utilized the demonstration classroom to practice teaching and designing classroom configurations in fall and spring.
<b>External Recognition:</b>	The Makerspace was featured in the EdPrep AACTE Blog in November of 2019.
